The Central Bank of Ireland ("CBI") is responsible for supervising the Product. BNPP AM is authorised in France and regulated by the Autorité des marchés financiers ("AMF").

Date of production of the KID: 22/01/2026

WHAT IS THIS PRODUCT?

Type

This Product is an undertaking for collective investment in transferable securities (UCITS) qualifying as an exchange-traded fund (ETF). It is a sub-fund of BNP PARIBAS Easy ICAV, an open-ended investment vehicle with variable capital organised governed by the laws of Ireland as well as by UCITS Directive 2009/65/CE.

Term

This Product has no maturity date.

BNPP AM is not entitled to terminate the Product unilaterally. The board of directors of the ICAV has the authority to decide to terminate the Product under specific circumstances as described in the prospectus.

Objectives

The Fund is actively managed. The benchmark MSCI World (USD) NR is used for performance comparison. The Fund is not benchmark constrained and its performance may deviate significantly from that of the benchmark.

Investment Objective: The investment objective of the Fund is to increase the value of the portfolio of world developed equities, using a multi-factor systematic security selection approach, while taking into account Environmental, Social and Governance (ESG) criteria.

Investment Policy: To achieve its investment objective, the Fund invests at least 90% of its assets in equities and/or equity-related securities issued by companies that have their registered offices or conduct the majority of their business activities in developed countries.

The Fund's portfolio will be built based on a systematic approach, combining several factor criteria such as, but not limited to, (i) cash flow generation (quality), (ii) relative valuation compared to peers (value), (iii) medium term performance trend (momentum) and (iv) low price variation ("low-volatility").

The Fund's portfolio is constructed to consistently achieve a portfolio's ESG score higher than that of the investment universe.

In addition, and in the framework of the implementation of the Strategy, the investment universe is reduced by removing companies that do not comply with the Investment Manager's Responsible Business Conduct ("RBC") Policy which includes: 1) norms-based screens, such as the UN Nations Global Compact principles and OECD Guidelines for Multinational Enterprises, and 2) the Investment Manager's sector policies, as set out in the section of the Prospectus titled "ESG-related Disclosures - Responsible Business Conduct Standards".

The review of the investment universe through the ESG integration approach is made against three ESG criteria:

- Environmental: such as energy efficiency, reduction of emissions of greenhouse gases, and treatment of waste;
- Social: such as respect of human rights and workers' rights, and human resources management (workers' health and safety, diversity); and
- Governance: such as board independence, managers' remuneration, and respect of minority shareholders rights.

ESG scores, as defined by the Investment Manager's proprietary scoring framework, are used as part of this assessment. Further details of the Investment Manager's ESG scoring framework can be found in the Prospectus under the heading "Index Funds and Active Funds: ESG Scoring Framework".

As such, the extra-financial analysis coverage is at least 90% of the assets of the Fund (excluding ancillary liquid assets) and is based on the Investment Manager proprietary extra-financial framework as further described in the section of the Prospectus titled "ESG-related disclosures".

The Fund's base currency is US Dollar.

Distribution Policy: It is not the current intention of the Directors to declare dividends in respect of Classes identified as "Capitalisation".

Recommendation: This Fund is suitable for medium to long term investment, though the Sub-Fund may also be suitable for shorter term exposure to the Index.

The management company pay part or all of its fees to any person that invests in or provides services to the ICAV or in respect of the Product in the form of a discount. Such amount may be up reduced up to 50%, for a period of 12 months from the date of the launch of the Product. Please refer to the section headed Fees, Costs and Expenses of the Prospectus. Thus Total Costs as defined below are preferential for the launch of the Product and will be applicable for a period of 12 months from the date of the launch. Performance Scenarios have been calculated taking into account these preferential costs.

Please refer to the supplement of the Fund (the "Supplement") for additional details about the objective and investment policy.

MSCI's website (www.msci.com) contains more detailed information about the MSCI indexes

Intended retail investors

This Product is designed for investors who have neither financial expertise nor any specific knowledge to understand the Product but nevertheless may bear a total capital loss. It is suited for clients who seek growth of capital. Potential investors should have an investment horizon of at least 5 years.

Practical Information

■ Custodian: BNP PARIBAS, Dublin Branch

■ This key information document is prepared for the aforementioned share class and describes a sub-fund of BNP PARIBAS Easy ICAV. Further information about the Product is contained in the prospectus and periodical reports which are issued at the level of the ICAV. The ICAV is structured as an umbrella fund with segregated liability between sub-funds. The Instrument of Incorporation provides that the ICAV may offer separate Classes of Shares, each representing interests in a sub-fund with each sub-fund comprising of a distinct portfolio of investments.

Further information about the Product including the latest prospectus, key information document, net asset values, latest published prices of share(s), periodical report, investment description, may be obtained free of cost, in English, from BNPP AM or online at <https://www.bnpparibas-am.com>.

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN?

Risk Indicator

The risk indicator assumes you keep the Product for 5 years.

You may not be able to sell your Product easily or you may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this Product compared to other Products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this Product as 4 out of 7, which is a medium risk class. The risk category is justified by the investment mainly in equities, the value of which can fluctuate considerably. These fluctuations are often amplified in the short term.

Be aware of currency risk. If the currency of your account is different from the currency of this Product, the payments you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. Because the Product currency is different from the reference currency of the Fund, you will be exposed to the fluctuations between those currencies.

This Product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the Product and/or appropriate benchmark over the last 10 years. The markets could develop very differently in the future. The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period: 5 years Example Investment: EUR 10,000	If you exit after 1 year	If you exit after 5 years
---	--------------------------	---------------------------

Scenarios

Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	3,612.21 EUR	3,799.4 EUR
	Average return each year	-63.88%	-17.60%
Unfavourable	What you might get back after costs	8,711.02 EUR	10,603.3 EUR
	Average return each year	-12.89%	1.18%
Moderate	What you might get back after costs	10,987.1 EUR	18,014.86 EUR
	Average return each year	9.87%	12.49%
Favourable	What you might get back after costs	14,361.73 EUR	21,313.95 EUR
	Average return each year	43.62%	16.34%

The below scenarios occurred for an investment using a suitable proxy.

The favorable scenario occurred for an investment between 2020 and 2025.

The moderate scenario occurred for an investment between 2019 and 2024.

The unfavorable scenario occurred for an investment between 2024 and 2025.

WHAT HAPPENS IF BNPP AM IS UNABLE TO PAY OUT?

The ICAV is incorporated as a separate entity distinct from BNPP AM. In the event BNPP AM would default, the assets of the Product/ICAV, held by a depository, would not be affected by this default.

In case of default of the depository, the risk of financial loss of the Product/ICAV is mitigated by the legal segregation of the assets of the depository from those of the Product/ICAV.

WHAT ARE THE COSTS?

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment. If this Product is used as an underlying of an insurance policy or a capitalization policy, the costs presented do not include any costs related to such policies.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the Product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year, you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the Product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total Cost	24 EUR	217.22 EUR
Annual Cost Impact (*)	0.24%	0.27% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.76% before costs and 12.49% after costs.

Composition of costs

One-off entry or exit costs	If you exit after 1 year	
Entry costs (*)	We do not charge an entry cost.	0 EUR
Exit costs (*)	We do not charge an exit cost.	0 EUR
Recurring costs levied annually		
Management costs and other administrative and operating costs	0.13% of the value of your investment per year. The amount is based on an estimate of the charges that will be taken out of your money.	13 EUR
Transaction costs	0.11% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the Product. The actual amount may vary. This figure is therefore indicative and may be revised upwards or downwards.	11 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 EUR

(*) We do not charge an entry or exit cost on the secondary market. Retail investors who are neither authorised participants nor authorised investors will indeed generally be able to buy or sell shares only on the secondary market where shares of the Product are traded with the assistance of an intermediary (e.g. a broker). In this case, those investors may incur fees and costs which are payable to the intermediary but not charged by the Product itself or its Manufacturer. You can find this out from your financial adviser. It shall be noted that the prospectus describes the maximum costs applicable on the primary market usually for authorised participants and authorised investors and/or in exceptional circumstances.

In case of conversion, no fee will be charged.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE MONEY OUT EARLY?

Recommended holding period ("RHP"): 5 years.

The RHP has been defined and based on the risk and reward profile of the Product.

Investors are able to redeem on a daily basis (on bank business days) as described in the prospectus.

Any redemption occurring before the end of the RHP may adversely impact the performance profile of the Product.

In addition, the investor's subscription or redemption order may be subject to an anti-dilution levy (maximum 3% for subscription and maximum 3% for redemption) paid to the sub-fund in order to cover transaction costs.

HOW CAN I COMPLAIN?

For any claim, you are invited to contact your usual relationship manager that advised you on the Product. You can also contact BNPP AM, as described on its website www.bnpparibas-am.com (Footnote 'Complaints management policy'), by writing to BNPP AM - Client Service - SA 90007 - 92729 Nanterre CEDEX.
