

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Jupiter Global Government Bond Active UCITS ETF (the Fund) – Accumulating ETF Share Class

ISIN: IE000GDU4WA8

A sub-fund of HANetf ICAV. Managed by HANetf Management Limited (the **Manager**)

Objectives and Investment Policy

The Fund aims to achieve income and capital growth over the medium to long term.

The Fund will invest, in a manner consistent with the UCITS Regulations and Central Bank requirements, at least 70% of its net assets in a portfolio of bonds issued or guaranteed by sovereign and supra-sovereign issuers (issuers controlled by multiple sovereign entities such as the European Investment Bank and the International Bank for Reconstruction and Development), listed or traded on a Regulated Market set out in Appendix 1 of the Prospectus. The Fund may also, to a lesser extent, invest in other debt securities, being corporate bonds, securitizations or convertible bonds, as well as money market instruments, as described in the Fund's Supplement.

The Investment Manager will use a combination of top-down macro-economic analysis and bottom-up fundamental research and analysis in order to select the securities for the portfolio. The focus of the top-down analysis will be to consider the macro-economic outlook and optimise the Fund's portfolio in order to determine:

- (i) the duration and yield curve positioning of portfolio holdings; and
- (ii) the level of exposure of the portfolio to a range of risk factors, such as interest rates, credit spreads and currencies.

The focus of the fundamental bottom-up analysis will be to research and assess the debt securities of individual issuer countries and quasi-sovereign issuers.

The average portfolio effective duration of the Fund is, in normal market conditions, expected to vary within 3 years (plus or minus) of the average portfolio effective duration of the securities comprising the Bloomberg Global Aggregate Treasuries TR Index (USD Hedged) (the "Benchmark"), as calculated by the Investment Manager. The Fund will not replicate or track the Benchmark and may invest in securities not included in the Benchmark.

Investment Policy: The Fund employs an active management investment approach in order to achieve its investment objective.

Dealing: Shares of the Fund ("Shares") are listed on one or more stock exchanges. Typically, only authorised participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.

Distribution policy: Income received by the Fund's investments will not be distributed in respect of the shares of this class. Instead, it will be accumulated and reinvested on behalf of the shareholders of the Fund.

Recommendation: This Fund may not be appropriate for short-term investment.

Currency: The base currency of the Fund is US Dollar. For full investment objectives and policy details, please refer to the supplement to the prospectus for the Fund (the "Supplement").

Risk and Reward Profile

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The lowest category (1) does not imply a risk-free investment.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The categorisation above (4) is due to the nature of the Fund's investments and risk associated with those investments, including:

- There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.

- **Credit/counterparty risk:** The Fund is exposed to the credit/default risk of the issuers of the fixed-income securities that the Fund may invest in. An issuer suffering an adverse change in its financial condition could lower the credit quality of a security, leading to greater price volatility of the security. A lowering of the credit rating of a security or its issuer may also affect the security's liquidity, making it more difficult to sell.
- **Derivatives risk:** Derivatives can behave unexpectedly. The pricing and volatility of derivatives may diverge from pricing and volatility of their underlying references
- **Credit ratings risk:** The ratings of fixed-income securities by credit rating agencies are a generally accepted barometer of credit risk. They are, however, subject to certain limitations and do not always guarantee the creditworthiness of the security and/or issuer. The rating of an issuer is heavily weighted by past performance and does not necessarily reflect

probable future conditions. Rating agencies might not always change their credit rating of an issuer in a timely manner to reflect events that could affect the issuer's ability to make scheduled payment on its obligations.

- **Interest rate risk:** Price changes in fixed-income securities are influenced predominantly by interest rate developments in the capital markets, which in turn are influenced by macro-economic factors. Investment in the Fund is subject to interest rate risk. In general, the prices of fixed-income securities could suffer when capital market interest rates rise, while they could increase in value when capital market interest rates fall. The

price changes also depend on the term or residual time to maturity of the fixed-income securities.

Risks not covered by the indicator, but which are materially relevant to the Fund include:

- **Liquidity on secondary market risk:** There can be no certainty that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Supplement and the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0%*
Exit charge	0%*
Charges taken from the Fund over a year	
Ongoing charges	0.30%**
Charges taken from the Fund under certain specific conditions	
Performance fee	None

* Authorised participants dealing directly with the Fund may pay an entry charge up to a maximum of 5% and an exit charge up to a maximum of 3%. The Fund is currently not exercising its entitlement to apply entry and exit charges.

As the Fund is an ETF, secondary market investors will not typically be able to deal directly with HANetf ICAV. Investors buying Shares on exchange will do so at market prices which will reflect broker fees and/or transactions charges and bid-ask spreads.

* Authorised participants dealing directly with the Fund will pay related transaction costs.

* For Investors dealing directly with the Fund, switching between sub-funds may incur a maximum switching charge of 3%.

** The ongoing charges are paid to the Manager who is responsible for discharging from its fee the cost of operating the Fund. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another investment fund.

Please see "General Charges and Expenses" and "Management Charges and Expenses" sections of the Prospectus and "Charges and Expenses" and "Key Information for Share Dealing" sections of the Supplement for further information about charges.

Past Performance

- There is insufficient data to provide a useful indication of past performance to investors.

Practical Information

Investment Manager: Jupiter Asset Management Limited

Depositary: J.P. Morgan SE - Dublin Branch.

Administrator: J.P. Morgan Administration Services (Ireland) Limited.

Further information: Copies of the Prospectus documentation and the latest financial statements are available free of charge from the Administrator. The Prospectus and financial statements are prepared for HANetf ICAV rather than separately for the Fund. Further information on the composition of the portfolio and information on the Index constituents is available at www.HANetf.com.

Remuneration Policy: Details of HANetf Management Limited remuneration policy, including a description of how remuneration and benefits are calculated and the identities of the persons responsible for awarding such remuneration/benefits, can be accessed from the following website: www.hanetf.com. A paper copy of these policy details is also available free of charge from HANetf Management Limited upon request.

Pricing information: The net asset value of the share class will be available during normal business hours every business day at the office of the Administrator and will be published daily on www.hanetf.com.

Switching: Switching of Shares between sub-funds of HANetf ICAV is not possible for investors who purchase shares on exchange. Switching may be available to authorised participants who deal directly with the Fund.

Segregated liability: The Fund is a sub-fund of HANetf ICAV, an umbrella Irish collective asset-management vehicle. Under Irish law the assets and liabilities of the Fund are segregated from other sub-funds within HANetf ICAV and the assets of the Fund will not be available to satisfy the liabilities of another fund of HANetf ICAV.

Taxation: HANetf ICAV is resident in Ireland for taxation purposes. Irish taxation legislation may impact on the personal tax position of an investor.

Liability statement: HANetf Management Limited may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

This Fund is authorised in Ireland and regulated by the Central Bank of Ireland.

HANetf Management Limited is authorised in Ireland and regulated by the Central Bank of Ireland.
