What is this product?

Type

The product is a UCITS sub-fund of an open-ended investment company with variable capital under the laws of Ireland. The fund is a UCITS ETF.

Term

This product is an open-ended fund without predefined maturity. You may request the redemption of shares generally on each valuation date. The company may, however, suspend the redemption if extraordinary circumstances appear to make this necessary, taking into account the interests of the investors. Further, the company may restrict the redemption. The product may be redeemed early in certain circumstances as set out in the sales prospectus. The 1C share class of Xtrackers Global Growth Leaders Active UCITS ETF was launched in 2026.

Objectives

The fund is actively managed. The fund is not managed in reference to a benchmark. **INVESTMENT OBJECTIVE:** The investment objective of the Fund is to achieve mid to long-term capital appreciation by investing primarily in equities from developed and emerging markets. **ALLOCATION:** The Investment Manager for the Fund is DWS Investment GmbH. The Investment Manager has appointed DWS Investments UK Limited as Sub-Portfolio Manager for the Fund. The Investment Manager will provide the composition of the Invested Assets, the "Proposed Allocation", to the Sub-Portfolio Manager on a scheduled monthly basis (the "Asset Selection Date"). The Investment Manager may also provide a Proposed Allocation at other times where the Investment Manager wishes to update the Proposed Allocation on the basis of indicators which could impact the allocation, being economic or geopolitical indicators or otherwise at the request of the Sub-Portfolio Manager. The Proposed Allocation will be selected from an investment universe, consisting primarily of large, medium, and small-sized companies listed on regulated markets in developed and emerging countries (the "Investment Universe"). The Investment Manager will select the Proposed Allocation according to a strategy, which selects companies, whose expected sales and/or earnings growth and/or margins are higher than the broad market. Typically the selected companies are characterised by an increasing market share and a growing customer base combined with higher perceived customer satisfaction. This usually results in a Proposed Allocation of companies offering innovative new products that give the companies a strong bargaining position combined with a degree of pricing power. Although there are no limitations regarding country or sector weightings, it can be expected that certain sectors or regions may have no or low weightings, should more attractive stocks from other sectors/regions be identified. **INVESTMENT POLICY:** The fund may employ techniques and instruments in order to manage risk, reduce costs and improve results. These techniques and instruments may include the use of financial contracts (derivatives). **FURTHER INFORMATION:** Certain information (including the latest share prices of the fund, indicative net asset values and full disclosure on the composition of the fund's portfolio) is available on your local DWS website or at www.Xtrackers.com. The return of the product is reflected by the daily calculated net asset value per unit and the distribution amount if applicable. The currency of the fund is USD. Returns and gains are not distributed but are reinvested in the fund. This fund is a sub-fund of Xtrackers (IE) plc for which the sales prospectus and the periodic reports are prepared as a whole in addition to individual supplements per sub-fund. The assets and liabilities of each sub-fund are segregated by law. As a result, assets of one sub-fund are not available in the event of claims against or insolvency of another.
