### Objectives and Investment Policy

- The Fund aims to increase the value of your investment over the long term.
- The Fund invests at least 80% of its assets in listed equity and equity related securities of US companies listed or traded on Regulated Markets.
- The Fund is actively managed in reference to the Russell 1000 Index. The index is broadly representative of the companies in which the Fund invests and provides a suitable target benchmark against which Fund performance will be measured and evaluated over time. The Investment Manager has discretion to select investments with weightings different to the index, and that are not in the index, and the Fund may display significant divergence from the index.
- The Fund applies a proprietary research model to generate model rankings for individual companies based on three underlying themes: (i) Quality; (ii) Catalyst; and (iii) Value. The Fund selects securities that rank most highly with regard to each theme relative to other securities within their industry.
- The Fund promotes environmental and social characteristics by applying a proprietary ESG (environmental, social and governance) materiality rating model to assess investee companies' exposure to material ESG risks in their respective industries. In applying the proprietary ESG model, the Fund aims to compare favourably against the index over rolling 12-month periods. At least 50% of the Fund is invested in companies that are aligned with environmental or social characteristics.
- The Fund also commits to investing at least 20% of its assets in sustainable investments. The Fund excludes companies that derive certain levels of revenue from industries such as, but not limited to, coal and tobacco. It also excludes companies that have direct involvement in nuclear or controversial weapons, and companies determined to have breached international standards and principles.
- The Investment Manager engages with companies to encourage improvement of their ESG practices.
- Further information about the environmental or social characteristics promoted by the Fund is available in the SFDR Annex to the Fund Supplement available at [www.columbiathreadneedle.com](http://www.columbiathreadneedle.com). The Fund is considered to fall within the scope of Article 8 of SFDR.
- Any income the Fund generates will be paid to you, unless you have chosen to have it reinvested.
- You can buy or sell shares in the Fund on any day that is a business day in London and Dublin. The Indicative Net Asset Value for the Fund is published on the exchanges where the fund is registered. You can find more detail on the investment objective and policy of the Fund in the Prospectus. ### Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk, Typically lower rewards Higher Risk, Typically higher rewards

- The Fund is rated 6 because funds of its type typically show high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- The Fund applies a range of measures as part of its consideration of ESG factors, including the exclusion of investments involved in certain industries and/or activities. This reduces the investable universe, and may impact the performance of the Fund positively or negatively relative to a benchmark or other funds without such restrictions.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the Prospectus and relevant Supplement.
