

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

### YieldMax® Future of Defence Option Income UCITS ETF (the Fund) – Distributing ETF Share Class

ISIN: IE000TAA0GK0

A sub-fund of HANetf II ICAV. Managed by HANetf Management Limited (the Manager)

#### Objectives and Investment Policy

The Fund aims to achieve capital growth through exposure to a portfolio of equities from the defence, aerospace, cyber security and other defence technology related industries and income through the associated dividends and option premiums.

In order to achieve its investment objective, the Fund will aim to:

- (i) invest at least 80% of its assets in a portfolio of equities or equity related securities, such as global depositary receipts (GDR) and American depositary receipts (ADR) of companies from the defence, aerospace, cyber security and other defence technology related industries;
- (ii) seek additional income through the implementation of option income strategies based upon listed call options.

The Investment Manager will implement option strategies using listed call options on an underlying security to generate additional income. The two types of option income strategies which will be followed, will be either a traditional covered call strategy and a covered call spread strategy. The strategy adopted, will depend on market conditions and the ability to generate income on an underlying security. The fund will give

priority to dividends, rather than to capital growth, and may at times distribute capital gains.

**Investment Policy:** The Fund employs an active management investment approach in order to achieve its investment objective.

**Dealing:** Shares of the Fund (**Shares**) are listed on one or more stock exchanges. Typically, only authorised participants (i.e. brokers) can purchase Shares from or sell Shares back to the Fund. Other investors can purchase and sell Shares on exchange on each day the relevant stock exchange is open.

**Distribution policy:** Income generated by the Fund's investments will be distributed monthly in respect of the Shares of this class.

**Recommendation:** This Fund may not be appropriate for short-term investment.

**Currency:** The base currency of the Fund is US Dollar. For full investment objectives and policy details, please refer to the Supplement.

#### Risk and Reward Profile

The categorisation above is not guaranteed to remain unchanged and may shift over time.

The lowest category (1) does not imply a risk-free investment.

The risk indicator was calculated incorporating simulated historical data and may not be a reliable indication of the future risk profile of the Fund.

The categorisation above (6) is due to the nature of the Fund's investments and risk associated with those investments, including:

- The value of underlying securities can be affected by daily financial market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- There is no assurance that any appreciation in the value of investments will occur, or that the investment objective of the Fund will be achieved.
- **Active Management Risk:** The Fund's assets will be actively managed by the Investment Manager who will have discretion (subject to the Fund's investment restrictions) to invest the Fund's assets in investments that it considers will enable the Fund to achieve its investment objective. There is no guarantee that the Fund's investment objective will be

achieved based on the investments selected.

- **Covered Call Options Strategy Risk:** While the Fund uses a covered call option strategy which is intended to provide income, there is no guarantee that the derivative strategy will achieve this. The Fund may forego some capital appreciation potential, while retaining the risk of loss should the price of the underlying securities decline. Selling call options will create exposure for the Fund, as it may have to deliver the underlying securities or their value and, should the market move unfavourably, this may result in an unlimited loss. The maximum loss for the seller of a call option is potentially unlimited if the option seller does not hold the underlying securities which underlies the options.
- **Derivatives risk:** Derivatives can behave unexpectedly. The pricing and volatility of derivatives may diverge from pricing and volatility of their underlying references
- **Sector Concentration Risk:** The Fund shall invest predominantly in companies in the defence sector and where a Fund invests a significant portion of its assets in the securities of companies of a sector, it is more likely to be impacted by events or conditions affecting that sector. For example, the defence industry can be significantly affected by government regulation and spending policies because companies involved in this industry rely, to a significant extent, on government demand for their products and services. The financial condition of these companies is

heavily influenced by government defence spending, which may be reduced in efforts to control government budgets.

Risks not covered by the indicator, but which are materially relevant to the Fund include:

- **Liquidity on secondary market risk:** There can be no certainty that Shares can always be bought or sold on a stock exchange or that the market price will reflect the NAV of the Fund.
- **Currency Risk:** The Fund may invest in securities denominated in currencies other than the base currency. Changes in the

exchange rates may adversely affect the performance of the fund.

It may be difficult for the Fund to buy or sell certain investments in some market conditions. Consequently, the price obtained when the Fund buys or sells securities may compare adversely to the price under normal market conditions.

For a complete overview of all risks attached to this Fund, refer to the section entitled "Risk Factors" in the Supplement and the Prospectus.

## Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

### One-off charges taken before or after you invest

Entry charge	0%*
Exit charge	0%*

### Charges taken from the Fund over a year

Ongoing charges	0.99%**
-----------------	---------

### Charges taken from the Fund under certain specific conditions

Performance fee	None
-----------------	------

\* Authorised participants dealing directly with the Fund may pay an entry charge up to a maximum of 5% and an exit charge up to a maximum of 3%. The Fund is currently not exercising its entitlement to apply entry and exit charges.

Since the Fund is an ETF, secondary market investors will not typically be able to deal directly with HANetf II ICAV. Investors buying Shares on exchange will do so at market prices which will reflect broker fees and/or transactions charges and bid-ask spreads as well as underlying company prices at the time of trading on the secondary market.

\* Authorised participants dealing directly with the Fund will pay related transaction costs.

\* For Investors dealing directly with the Fund, switching between sub-funds may incur a maximum switching charge of 3%.

\*\* The ongoing charges are paid to the Manager which is responsible for discharging from its fee the cost of operating the Fund. It excludes portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another investment fund.

Please see "General Charges and Expenses" and "Management Charges and Expenses" sections of the Prospectus and "Charges and Expenses" and "Key Information for Share Dealing" sections of the Supplement for further information about charges.

## Past Performance

- There is insufficient data to provide a useful indication of past performance to investors

## Practical Information

**Investment Manager:** Tidal Investments LLC
