This PRIIPs is authorized in Ireland.

The Management Company is authorized in Luxembourg and regulated by Commission de Surveillance du Secteur Financier (CSSF).

Publication Date: 30-04-2026

What is this product?

Type

Shares of a sub-fund of Fidelity UCITS ICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

SFDR Article 8 (promotes environmental, social and governance ("ESG") characteristics) - ESG Tilt.

Term

This fund is open-ended. The Management Company is not entitled to terminate the fund unilaterally, however, the board of directors of Fidelity UCITS ICAV may terminate the fund by way of liquidation or merger.

Objectives

Investment objective The fund aims to achieve long-term capital growth from a portfolio primarily made up of equity securities of companies in developed market countries in the Pacific region excluding Japan.

Investment policy The fund invests primarily in equities of companies domiciled, or exercising the predominant part of their economic activity, in developed market countries in the Pacific region excluding Japan.

The fund aims to outperform the Benchmark by a target of 1% annualised gross returns over a period of 5 years or more.

The fund may use derivatives for efficient portfolio management and currency hedging purposes.

Investment approach The fund is actively managed and references the Benchmark (as defined below) as part of its investment process. The fund uses a quantitative approach to deliver a portfolio of investments that are usually focused on the highest conviction stock recommendations identified by the Investment Manager's research analysts. On an ongoing basis, the fund will consider a wide range of environmental and social characteristics such as carbon intensity, carbon emissions, energy efficiency, water and waste management, biodiversity, product safety, supply chain, health and safety and human rights. The fund aims to achieve an ESG score of its portfolio greater than that of its Benchmark. For more information, see "Sustainable Investing Policy and ESG Integration" and the Sustainability Annex sections of the

Prospectus.

Benchmark MSCI Pacific ex-Japan (Net Total Return) Index (the "Benchmark"), an index that does not take into account ESG characteristics. Used for: investment selection, risk monitoring, performance and carbon footprint comparison. The fund has limited discretion in choosing investments relative to the Benchmark. It may invest in securities not included in the Benchmark and in different proportions to the Benchmark in order to take advantage of investment opportunities; however, the Benchmark constituents are generally representative of the fund's portfolio. This means that both the fund's portfolio and performance is unlikely to vary significantly from those of the Benchmark.

Distribution policy As this is a non-distributing share class, dividends are re-invested.

Base Currency USD

Further information You may sell (redeem) or switch some or all of your shares to another fund on any Valuation Day. This key information document describes a sub-fund of Fidelity UCITS ICAV. A separate pool of assets is invested and maintained for each sub-fund of Fidelity UCITS ICAV. The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. For more information, please consult the prospectus and latest reports and accounts which can be obtained free of charge in English and other main languages from the Management Company. These documents and details of the Remuneration Policy are available via www.fidelityinternational.com. The Net Asset Value of the fund is available at the registered office of the Management Company, and at www.fidelityinternational.com. Information regarding portfolio holdings and the indicative net asset value is available at www.fidelityinternational.com.

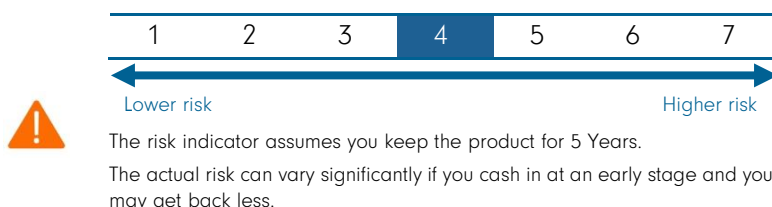

Depository Brown Brothers Harriman Trustee Services (Ireland) Limited.

Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds, who plan to hold their investment for a recommended holding period of at least 5 years, who seek capital growth over the recommended holding period and income; and who understand the risk of losing some or all the capital invested.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks: liquidity.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If the Management Company is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into

account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between (10/2017 - 10/2022).

Moderate scenario: This type of scenario occurred for an investment between (04/2021 - 04/2026).

Favourable scenario: This type of scenario occurred for an investment between (05/2016 - 05/2021).

Recommended holding period Example Investment		5 years USD 10 000	
Scenarios		If you exit after 1 Year	If you exit after 5 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	3 490 USD -65.1 %	3 660 USD -18.2 %
Unfavourable	What you might get back after costs Average return each year	7 610 USD -23.9 %	10 210 USD 0.4 %
Moderate	What you might get back after costs Average return each year	10 660 USD 6.6 %	12 730 USD 5.0 %
Favourable	What you might get back after costs Average return each year	15 410 USD 54.1 %	16 660 USD 10.7 %

What happens if the Management Company is unable to pay out?

The assets and liabilities of this product are segregated from those of the Management Company. There is no cross-liability between these entities, and the product would not be liable if the Management Company or any delegated service provider were to fail or default. This product does not participate in an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- USD 10 000 is invested.

Example Investment 10 000 USD		
Scenarios	If you exit after 1 Year	If you exit after 5 years (recommended holding period)
Total Costs	28 USD	138 USD
Annual Cost impact (*)	0.3%	0.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.3 % before costs and 5.0 % after costs.

Authorised participants dealing directly with the fund may pay an entry charge up to 5% and an exit charge up to 3%. Although not charged directly to investors who are not authorised participants, these charges may have an impact on brokerage fees, transaction fees and/or the "bid-ask" spread.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	We do not charge an entry fee.	0 USD
Exit costs	We do not charge an exit fee for this product.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.2% of the value of your investment per year. This is an estimate based on actual costs over the last year.	20 USD
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	8 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	N/A

Authorised participants dealing directly with the fund may pay an entry charge up to 5% and an exit charge up to 3%. Although not charged directly to investors who are not authorised participants, these charges may have an impact on brokerage fees, transaction fees and/or the "bid-ask" spread.

How long should I hold it and can I take money out early?

Recommended holding period: 5 Years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Order Processing: The shares are listed and traded on various stock exchanges. Investors who are not authorised participants can generally only buy or sell the shares on those stock exchanges at the then prevailing market price. In normal circumstances, authorised participants may buy and sell shares directly with the Fund, by submitting orders by 5:00 PM CET (4:00 PM Irish time) on the Business Day that is prior to the relevant Dealing Day. Such orders are ordinarily processed at the NAV for that Dealing Day.

How can I complain?

If you wish to make a complaint about this product or the conduct of the Management Company please visit www.fidelityinternational.com. Alternatively, write to The Management Company at George's Quay House, 43 Townsend Street, Dublin 2, Ireland or email fidelity.ce.crm@fil.com. If you have a complaint about the person who advised you about this product, or who sold it to you please contact them for their complaints process.
