1. What is this product ?

Product Type : The Fund is an actively managed Undertaking for Collective Investment in Transferable Securities (UCITS) in the form of an Exchange Traded Fund (ETF) under Luxembourg law, constituted as a sub-fund of a Société d'Investissement à Capital Variable (SICAV).

Maturity : This product has no specific maturity date. However, this product may be dissolved or merged, in which case you will be informed by any appropriate means provided for by the regulations.

Objectives : The objective of the Fund is to deliver the net total return of a selection of equities which are listed in Europe while consistently integrating environmental, social and governance ("ESG") matters.

Investment Policy : In order to achieve its investment objective, the Fund can use total return swaps with the objective of delivering synthetically the performance of a portfolio of equities which are selected and weighted as detailed under the investment strategy. This method implies a counterparty risk as described in the Risk and Reward Profile section in the Prospectus. The net asset value per share of the Fund will therefore increase (or decrease) according to the evolution of the portfolio of equities. The counterparty to the swaps will be a first-class financial institution that specialises in this type of transaction. The Fund may also enter into multiple swap agreements with multiple swap counterparties with the same characteristics as previously described. Alternatively, the Fund can invest directly in all or part of the equity securities which are selected by applying the investment strategy described in the Prospectus. In any case, the Fund will be invested in for a minimum of 75% in equities or rights issued by companies having their registered office in the European Economic Area, excluding Liechtenstein. In addition, and on an ancillary basis, the Fund may use other derivatives for hedging and investment purposes as described under "Use of Derivatives, Special Investment and Hedging Techniques" in the Prospectus. The Reference Currency of the Fund is the Euro. The Fund is actively managed and will only use its benchmark, the Solactive Europe 600 Index NTR (the "Benchmark") for performance and carbon emission comparison purposes. The Fund's portfolio composition is therefore not constrained by the Benchmark. The Management Company may invest in securities not included in the Benchmark based on the active Investment Strategy further described in the Prospectus. The Fund's holdings may deviate significantly from the Benchmark's constituents, as the Benchmark will not be used as a universe from which to select securities.

Allocation of distributable amounts : Capitalization.

Intended Investors : The Fund is intended for retail investors with the ability to bear losses up to the amount invested in the Fund.

Depositary : State Street Bank International GmbH, Luxembourg Branch.

Additional information : The Fund's prospectus and annual and semi-annual reports are available on the management company's website and free of charge on written request to info@ossiam.com. The net asset value is available on the management company's website. www.ossiam.com

Composition of costs

This table shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories.

* Secondary Market: because the Fund is an ETF, Investors who are not Authorized Participants will generally only be able to buy or sell shares on the secondary market. Accordingly, investors will pay brokerage fees and/or transaction costs in connection with their dealings on stock exchange(s). These brokerage fees and/or transaction costs are not charged by, or payable to, the Fund nor the Management Company but to the investor's own intermediary. In addition, the investors may also bear the costs of "bid-ask" spreads; meaning the difference between the prices at which shares can be bought and sold.

Primary Market: Authorized Participants dealing directly with the Fund will pay related primary market transaction costs.
