What is this product?

Type

Shares of a sub-fund of Janus Henderson Tabula Fund a Société d'Investissement à Capital Variable, société anonyme, composed of sub-funds qualifying as UCITS and organized under the laws of the Grand Duchy of Luxembourg.

Objectives

Investment Objective: The Fund aims to provide a return from a combination of income and capital growth over the long term by investing in an actively managed portfolio of AAA-rated collateralised loan obligations (CLOs). The Fund is actively managed with reference to the J.P. Morgan European Collateralised Loan Obligation Index AAA sub-set (€-CLOIE AAA). The Sub-Fund's portfolio may deviate significantly from the benchmark.

Investment Approach: The Fund will invest at least 80% of its Net Asset Value in eligible CLOs of any maturity that are rated AAA (or equivalent by a nationally recognised ratings agency) at the time of purchase with a focus on European CLOs.

In case securities in the portfolio are downgraded below a rating of AAA (or equivalent), the Investment Manager will seek to sell the relevant securities as soon as reasonably possible, provided that it determines that it is in the best interests of investors. The Fund may invest up to:

5% of its Net Asset Value in a single CLO security

15% of its Net Asset Value in CLOs managed by an individual manager

30% of its Net Asset Value in eligible non-European focused CLOs with non-Euro denominated; securities hedged back to Euro

10% of its Net Asset Value in fixed rate securities that are hedged back to floating rate

The Fund will not invest more than 10% of its Net Asset Value in Eligible Collective Investment Schemes

Derivatives may be used for the purposes of hedging/risk reduction specifically interest and foreign currency exchange rates.

For treasury management and/or defensive purposes (e.g. in case of unfavourable market conditions), the Fund may invest in cash and Money Market Instruments. The Fund's major part of currency exposure is hedged to base currency.

The Fund promotes environmental and social characteristics, as defined under Article 8 of SFDR.

Term of the PRIIP: The Sub-Fund has no maturity date. The manufacturer is not entitled to terminate the PRIIP unilaterally. In accordance with the provisions of the prospectus, the board of directors of the PRIIP can decide to liquidate a sub-fund or a share class. The board of directors may terminate/liquidate/split the Sub-Fund or a share class under certain circumstances, as further detailed in section "6. Liquidation, Merger and De-Merger of Funds and Share Classes" of the prospectus

Redemption and Dealing Shares: You can purchase or sell units in the Sub-Fund on any business day as further specified in the Supplement.

Distribution Policy: The Sub-Fund can launch both accumulating and distributing share classes. Please refer to www.tabulaim.com/documents and search "dividend calendar" for further information.

Intended Retail Investor: The Fund is intended for well-informed investors aiming to invest over the long term, who are able to make an informed investment decision based on this document and the Prospectus, have a risk appetite consistent with the risk indicator below and understand that there is no capital guarantee protection (100% of capital is at risk). The Fund is not intended for Basic Investors as defined under the MIFID 2 regulations

Depository: HSBC Continental Europe, Luxembourg Branch.

Fund Currency: The base currency of the sub-fund is EUR and the share class currency is EUR.

What are the risks and what could I get in return?

Lower risk

Higher risk

Typically Lower Rewards

Typically Higher Rewards

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or you may have to sell at a price that significantly impacts on how much you get back. Be aware of currency risk. In some circumstances, you may receive payments in a different currency, so the final return you will get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The Sub-Fund has been rated as a 2 due to the nature of its investments and frequency of price movements which includes the following. This rates the potential losses from future performance at a medium level and poor market conditions could impact the capacity of the Sub-Fund to pay you.

No capital protection: The value of your investment may go down as well as up and you may not get back the amount you invested.

Details of all relevant risks can be found in the prospectus and supplement, available at www.tabulaim.com.

Performance Scenarios

The figures shown include all the costs of the product itself (the ongoing costs of the representative share class) but may not include all the costs that you pay to your advisor or distributor / and includes the costs of your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Fund over the last 5 years. The stress scenario shows what you might get back in extreme market circumstances.

What happens if Waystone Management Company (Lux) S.A is unable to pay out?

Investors in the Sub-Fund acknowledge that 100% of capital is at risk and are capable of bearing that loss. The Sub-Fund is not a deposit and as such is not covered by any deposit protection scheme. For your protection, the assets of the Sub-Fund are held in safekeeping by its depositary HSBC Continental Europe, Luxembourg Branch. In the event of the depositary's insolvency, the Sub-Fund may suffer a financial loss. However, this risk is mitigated to some extent by the fact the depositary is required by applicable laws and regulations to segregate its own assets from the assets of the Sub-Fund.

What are the costs?

The person selling to you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time. The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

| Investment: 10000 € | If you cash in after 1 year | If you cash in at the end of the 5 years |
|------------------------|-----------------------------|--|
| Total costs | 36.00 € | 178.82 € |
| Annual cost impact (*) | 0.360% | 0.360% |

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your median return per year before cost (the ongoing cost of the representative share class) is projected to be 0.42% and your median return per year after costs is projected to be 0.06%.

Composition of costs

The table below shows the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period and the meaning of the different cost categories. Note that there is no performance fee.

| Impact on return per year | | | |
|---------------------------|-----------------------|-------|--|
| One-off costs | Entry costs | 0.00% | The costs you pay when entering your investment |
| | Exit costs | 0.00% | |
| Other ongoing costs | Portfolio transaction | 0.01% | The cost of buying and selling the underlying investment for the product |
| | Other ongoing costs | 0.25% | The costs that we take each year for managing your investment |
| Incidental costs | Performance fees | | |

Transaction Cost: This is an estimate of the costs incurred when we buy and sell the underlying investments of the product. The actual amount will vary depending on how much we buy and sell

Other Ongoing Costs: this is the total expense ratio. I.e. The total of management fees and other administrative or operating costs

Entry / Exit Cost: We do not charge secondary market investors an entry or exit fee for this product, but the person selling you the product may do so. The information can be obtained from your brokers. The Authorised Participants dealing in the primary market pay for the subscription and redemption charges.

How long should I hold it and can I take money out early?

The recommended holding period is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels. In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the Sub-Fund can be temporarily hindered and/or suspended and may not be possible at all.
